ODEV-06 örnek çıktıları :

Yukarıdaki şekilde komut satırından kodumu test ettiğimde çıkan görüntüdür. En sağdaki boş ekran ise QUI komudunu yazınca oluşuyor. Log dosyasında gözüküp de orada olmayan konuşmaların sebebi budur. QUI komutuyla her şey sıfırlanıyor ve tekrardan girmek gerekiyor. Server tarafında yazan error mesajları ise sadece debug amaçlı kalmıştır. Toplamda 3 tane client ile her durumu deneyerek log file da oluşturdum. Aşağıdaki sayfalarda oluşan logfile.txt dosyasının içeriği bulunmaktadır.
